

Breakfast Symposium:

Similar But Not the Same – Dawn of A New Age for Centrifugal Therapeutic Plasma Exchange (cTPE)

We warmly invite you to our breakfast symposium at ISFA 2025, where we will explore the evolving landscape of centrifugal therapeutic plasma exchange (cTPE) and its transformative potential in patient care. This session aims to foster collaborative dialogue on advancing apheresis practices, emphasizing innovation, clinical insights, and patient-centered outcomes.

Let's shape the future of apheresis over breakfast and shared ideas. Please scan the QR code to register your participation in our event.

Topics and Speakers

Welcome & Opening Remarks

Dr. Metha Apiwattanakul

Head of the Neuroimmunology Unit
Prasat Neurological Institute, Thailand

A Change for Better Exchange: Dawn of cTPE

Dr. Mickael Beraud

Director
Global Medical Affairs
Terumo Blood and Cell Technologies

The Efficacy of Centrifugal Plasma Exchange and Our Vision for Outpatient Apheresis Therapy

Dr. Daisuke Katagiri

Medical Director of Blood Purification Lab
National Center for Global Health and
Medicine Tokyo, Japan

Terumo Blood and Cell Technologies
ISFA 2025 Symposium
18 July, 07:30-08:30
